## BANK OF EDMONTON

### A PROSPECTIVE INSTITUTION

Edmonton May be the Headquarters of a Newly Incorporated Bank

The Bank of Edmonton is among the possibilities which may be speedily realized. Mr. J. E. Durand, a financier of Victoria, B.C., is in the city at present to sell stock in a new bank which can be established with headquarters here, provided \$150,000 to \$250,000 worth of stock is subscribed in the city.

At the last session of Parliament a new bank to be called "The Farmers' Bank" was incorporated, with a capital of \$2,000,000. Headquarters were to be established at Toronto.

The promoters have come to the conclusion that Western Canada is the proper place for a new bank to secure business and have sent Mr. Durand, of Victoria, to look over the field. He has done so and from usually well-informed quarters it is learned that he has decided Edmonton is the proper place, and will sell stock here, providing he can dispose of upwards of \$150,000, guaranteeing Edmonton as the headquarters and that the name will be changed to the Bank of Edmonton.

The stock can be purchased on easy terms, 10 per cent down, 30 per cent at time of allotment, which is 30 days later, and 10 per cent a month for six months.

The advertisement given Edmonton by having a bank of that name with bank notes printed with appropriate scenes, cannot be over-estimated.

## THE NORTHERN TRADE

Mr. T. Kelly of the H. B. Co. Transport Tells of the North Country

Mr. Theo. Kelly, who has charge of the middle division of the northern transport of the Hudson Bay Co., arrived in the city Saturday. He was accompanied by Capt. McLeod who has command of the Co's steamer Peace River, which runs on the river of that name, and Capt. Gullion, of the Graham, which plies on the Athabasca.

The great McKenzie river which is the connecting link with the north, in its upper waters has many names, called the Slave, Peace, and Athabasca. On these different streams the H. B. steamers ply, taking in supplies to the different posts and to the traders, and bringing out the valuable pelts which at present constitute the output of the north land. The steamers Peace River on the Peace River, the Graham on the Athabasca, and the Wrigley on the Slave and McKenzie are the summer transports to the north, serving a country over two thousand miles in length, while in the winter the freighters go as far north as Fort Vermilion on Peace River and the dog train only from there north.

Last season the boats carried about one hundred passengers, missionaries, geologists, prospectors and the Co's Employees. The last steamer put on the Peace River, is built on the model of the Mississippi River boat, 140x25 foot, stern wheel, flat bottom, electric lighted and with modern conveniences.

If the Peace River country around Fort Vermilion the past season was a most successful one. The wheat crop being splendid the H. B. Co's flour mill is very busy, turning out a good grade of flour. Potatoes were excellent, the Co. had 800 bushels off two acres. About 60 families are now settled in that district and are apparently doing well. Stock raising is very profitable and the herds are doing well. The following are the market prices: Wheat, \$1.50 per bushel, eggs 25c a dozen, butter 25c a lb; dressed beef, between 7c and 8c a lb.

Freight rates are high, the cost being 2c a lb. to Athabasca Landing, 3c a lb. to Lesser Slave Lake, and according to the state of the roads 1 1/2c to 3 1/2c to Peace River, 1c a lb. from there to Fort Vermilion, via the Co's steamer, (300 miles).

The waters of the rivers traversed by the Hudson Bay Co's steamers are rapid running and require constant care to avoid the bars and shoals, accidents are rare and the officials are constantly on the alert. From Athabasca Landing 100 steamers travel on the Co's steamers, 500 miles north to the mouth of the Peace River, the lead in the north.

### C. P. R. MAKING AMERICAN CONNECTIONS

St. Paul, Oct. 25. - It is believed the movement of railroad surveys working in South Dakota are directed by the Soo and Canadian Pacific railways. It is asserted that in Minneapolis and St. Louis, the Canadian Pacific and the Soo have found an out let to St. Louis and thence south. It is believed to be the intention of the Soo to go through Minneapolis to St. Louis, to build a link which will unite the latter's Watertown branch with the Soo in North Dakota.

SHINGLE MILL BURNED.  
New Westminster, B.C., Oct. 24. - Fire destroyed the shingle mill of the Fraser River Lumber Co., loss \$12,000, insurance \$7,000.

### INFORMATION FOR ELECTORS

The first election in the Province of Alberta will take place on Thursday, November 9. For the information of voters the following is a summary of the law governing the same.

The persons qualified to vote are male British subjects by birth or naturalization, (other than unfranchised Indians) who have attained the full age of 21 years, and who have resided in the North West Territories or the Province of Alberta for at least the twelve months, and in the electoral district for at least the three months, respectively immediately preceding the time of voting.

An elector can vote only at the polling place for the polling division in which he resides.

Only vote for one candidate, or the vote will be void and the voter liable to a fine of \$100.

The voter, after receiving his ballot paper and the pencils provided for marking it from the Deputy Returning Officer, will retire into the inner room of the polling place, select from the pencils provided the one of the color representing the candidate for whom he desires to vote, and bearing his name, and with such pencil shall make a mark in the form of an X on the blank face of the ballot paper.

The ballot shall be folded at the crease thereon so that the mark made by him will be folded inwards. Then, moistening the muslin on the paper, seal the gummed ends, hiding the mark from sight, and return the pencils and ballot to the Deputy Returning Officer, who will deposit the ballot in the ballot box, the voter immediately leaving the polling station.

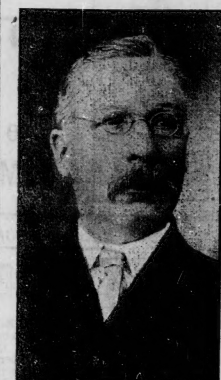

Any voter who tries to violate the secrecy of the ballot by placing a peculiar mark, or placing it in a peculiar place, or by showing it after marking, or any person who instigates any voter to mark his ballot thus, or show it after marking, shall be liable to a fine of \$100.

## PREMIER RUTHERFORD

Opened His Campaign by Addressing a Large Audience in Strathcona Last Evening

Premier Rutherford addressed a largely attended meeting of his constituents in Ross Hall last night, and was enthusiastically received. N. D. Hills occupied the chair and Dr. McIntyre, N. Ritchie, J. G. Tipton, and ex-Mayor J. J. McKenzie were on the platform.

The premier spoke for two hours and delivered an excellent address. He clearly outlined the policy of the Government of which he was the Premier and the policy of the Education and Treasury Departments of which he is Minister, the needs of the new province for educational institutions and his plans for filling them. The C. P. R. exemption from taxation on lands and road-bed was

HON. A. C. RUTHERFORD.

seriously dealt with, and his position in regard to this clearly defined.

R. B. Bennett had said that the Province of Alberta had no assets. But he, the Premier had received a letter from an eminent financier, to know if the government required any funds, and he was proud to reply that the Government had enough and to spare.

Regarding the school question, he explained the position of the Government. Showing it to be the same as that of the Haultain administration, and closed with an eloquent appeal for a continuance of the support accorded him in the late Territorial election.

## Pharaoh Cigar

I have studied the making of cigars all my life and I know just what style of rolling makes the best smoke. I have taken the young men of Granby and taught them to make cigars my way—and I watch them to see that each cigar is made that way. If I made every one of my Pharaoh cigars myself they couldn't be more carefully or more perfectly made. The result is that my

is not rolled so tight that it draws hard, or so loose that it burns badly—just the right amount of filler, properly held by the binder, and finished with the wrapper so it smokes freely and burns evenly. The test of a cigar is the smoking of it, and I am sure after trying my cigar you will agree with me that it is an excellent smoke. Every genuine "Pharaoh" cigar is branded "Pha-ro."

## WHERE IT LEADS

(Begin Leader)

Under the terms of the Saskatchewan Act, it is stipulated that the Dominion shall pay the Province this year half year in advance the following cash grants:

Legislative grant.....	\$3,500.00
Per capita grant.....	200,000
Debt allowance.....	465,375
Grant in lieu of lands.....	375,000
Special grant for public buildings in lieu of lands.....	93,750

Total cash grant.....\$1,124,125

If Mr. Haultain's policy is adopted the last two amounts will be refused by this Province and the lands taken over, thus making the total Dominion subsidy only \$655,375.

Last year the management of the Lands Department alone for Manitoba, Saskatchewan and Alberta resulted in a net loss to the Dominion of \$150,000. If Saskatchewan were called upon to pay one-third of this amount it would mean a loss of \$50,000 which deducted from the net subsidy about leaves \$605,375.

If the province takes over the lands it will also be called upon to assume the immigration service and in order to get the same results it must be kept as efficient as the Dominion service which last year cost about \$900,000. Saskatchewan's one-third share of this expense would be \$300,000. Deducting this expenditure from the Dominion subsidy leaves only \$305,375.

Mr. Haultain's demand is that Saskatchewan shall be placed on exactly the same basis as every other Province in Canada, and if the new Province takes over the lands they must also take over the Mounted Police force, because the Dominion does not maintain such a body in any other provinces. This force in the Territories last year cost \$500,000. Saskatchewan's share would consequently be one-half or \$250,000. Deducting this amount from the Dominion subsidy leaves \$55,375 as the balance of the total Dominion subsidy left over and above these expenditures which the Province must assume if it takes over the lands.

Only \$55,375! In beginning its Provincial career with such a revenue what would Saskatchewan have to do? There is only one of two alternatives. Stop the free homestead policy which is today developing and building up the Province and making it prosperous or resort to Direct Taxation.

The opinion was expressed in Parliament by Hon. R. L. Borden, leader of the Conservative party, that if the Provinces were given good state-managed "high" to have inserted if necessary, a "provision with regard to free homesteads," meaning that the Provinces should be required to continue the free homestead policy.

Therefore the rejection of the Liberal policy means the adoption of Mr. Haultain's policy means one thing and one thing only—DIRECT TAXATION.

## ELECTION ADDRESS

To the electors of the District of St. Albert, gentlemen:  
At the urgent request of a very large number of influential electors in your district, I respectfully offer myself as a candidate for your suffrages.

As a Liberal I will give a staunch and loyal support to the Policy of Sir Wilfrid Laurier and to the Rutherford Government of Alberta.

Should I be fortunate enough to become your representative, I would at once devote my most earnest attention to the immediate construction of good roads and bridges throughout the district, particularly in the outlying settlements.  
I will also move in the direction of all legislation tending towards greater facilities of transportation and freedom of trade with our natural markets.

I regard farming and manufacturing interests as of supreme importance and will labor in their advancement to the utmost of my power.

My services will be always cheerfully placed at the disposal of any of my constituents.

I will earnestly devote myself to whatever will help to raise the moral tone in political matters.  
Whomever may be your final choice, permit me at this critical period in the young life of your Province to humbly direct your attention to the vital importance which attaches itself to the selection of your representative, called upon as he will be to assist in framing sound and workable laws safeguarding your future well-being.

H. W. McKENNEY.

**"THE HEAD BOWED DOWN"**

(Calgary Albertan)

"When I come a little farther west to the little town at the edge of the Saskatchewan, how my head falls down because the people of Saskatchewan and Alberta are an inferior people to the people of the east."

These are not brave words of the leader of a political party to address to a public meeting in the largest hall in the capital of a great though young province. They are not the words of a Moses, willing and eager to lead a people out of the land of Egypt and out of the house of bondage. Rather are they the lamentations of a Jeremiah, with head bowed down at present conditions, and no hope for the future. The Jeremiah who gave forth the doleful utterance is R. B. Bennett, and the place of his wall—the little town on the edge of the Saskatchewan—is Edmonton.

Mr. Bennett, when his feelings overcame him to such an extent that he had to find vent in the language above quoted, was telling his hearers about the terrible way in which Alberta and Saskatchewan had been treated by the Federal Government, as compared with the other provinces, and as he dilated upon the condition of affairs, every "comma" represented a sob and every "period" an inarticulate sob.

Now, gentle reader, let us put Mr. Bennett to one side for the time being, so that he may be enabled to dry his tears, and let us look into the condition of the provinces of the Dominion for a minute or two, without hysteria and without prejudice. Every province in Canada carries debt today except Alberta and Saskatchewan. Ontario's debt at the end of the fiscal year 1904, was \$2,600,000; Quebec's indebtedness on June 30th, 1903, was \$26,290,672; Nova Scotia on Sept. 30th, 1902, owed \$1,884,948; New Brunswick, on Oct. 31st, 1903, carried a debt of \$3,849,655, with assets to the extent of \$635,655; Little Prince Edward Island, that we could lose in one of our western constituencies, staggered along with a debt of \$687,000, and British Columbia, in 1904, was up against the money lender to the extent of \$8,765,412. Alberta and Saskatchewan do not owe a five cent piece, and begin their provincial housekeeping with an annual purse of \$1,030,275; that will not only keep all of the departments moving smoothly along, but will also enable the present Liberal Government of Alberta to aid and assist the Dominion Government in further developing the interests of the province and for the advancement of the people thereof. In addition to the receipt of the present annual sum of \$1,030,375, a further annual payment of \$93,750, for five years, or \$468,750, is given by the Federal Government for the construction of public buildings in Alberta.

If Mr. Bennett's political friends were in power at Ottawa, the west would in all probability be very differently treated. We all remember how his friends who were in power at Ottawa treated the settlers of the west after the Riel rebellion, when they charged up against them between \$3,000,000 and \$4,000,000 for suppressing the revolt, which had been caused by Governmental maladministration.

This outrage upon the people of the west was not remedied until the Liberals came into power, and then it was wiped out, lock, stock and barrel.

Is it to be wondered at that Mr. Bennett's "head falls down," or that his voice falters when he thinks of the different treatment meted out to the west under the Liberal rule when compared with Conservative maladministration? When his friends were in power, the west and poverty, rebellion, territorial debts, business stagnation. Under Liberal rule it has prosperity, peace, no provincial debts, progress today and confidence in tomorrow.

To Mr. Bennett we would say "Cheer up." The west is not a desert waste. It is a good thing for the Province that it begins with a clean sheet. A "co-equal" and "co-extensive" right to carry a large public debt, as all of the other provinces do would not appeal favorably to the electors of the west at the present juncture.

Conjuring Creek, Oct. 23.—Threshing will soon be in full swing. Crops here this year are certainly good, also gardens.

Winter put in an appearance on Monday last by having a snow storm but it has all disappeared and fall plowing is the order of the day. The heavy crop this year is keeping the work back somewhat.

Elections is the theme of discussion now.

A few new settlers are coming into the district.

## The Campaign

WHICH SUITS YOU BEST?  
(Red Deer Advocate)

Alberta the fair, starting in life with a clean sheet, full of hope, eager for advancement, with a large income, and her free lands, with the best public school system in Canada, and with a sensible, clean, highly esteemed body of men as the Government of the day, calls for a chance to set about the duties which demand attention. The Government is waiting for the endorsement of the people, when it will at once proceed to work out in this provincial field, a deliberate and statesmanlike policy of rebuilding and of expansion. Higher education, the special training of our youth in the theory and experimental work of farming in all its branches, experimental farms, improvement of stock, spread of useful knowledge on these subjects, large outlay on substantial bridges, the great and foremost work of good roads, draining, encouragement of industries, the clean, sound and wise administration of affairs, these and other useful work, calculated to do us all good, is their purpose. Against all this, what do we see the aim and avowed purpose of the Opposition? Simple agitation, disturbance, a great law-suit, and such an unsettled state of affairs over their hopes as will do infinite harm to our true interests. We believe we voice the judgment of wise men when we say, "Give us a sagacious, solid clean administration, whose aim is the advancement and enrichment of Alberta, not a body of loud-voiced agitators with an empty cry."

### LIBERAL STALWARTS (Albertan)

The Liberal candidates in the ridings in the vicinity of Calgary deserve the support of the electors, not only because they represent an administration which is worthy of support, but because they themselves are superior men and should receive an individual support.

Take for instance C. A. Stuart, in Gleichen. He is a very able man, and would be a tower of strength in the new legislature, particularly at this time, when a new province is being formed and when the problems to be solved by the legislature are of a constitutional nature. Mr. Stuart is without doubt the greatest authority in this respect in Alberta.

Against Mr. Stuart, asking for the votes of the electors is J. W. Haynes, a gentleman of such meagre abilities that he is not recognized by the party press, or by the party leaders. It is a race between a giant and another person, whose qualifications as a candidate may as well be left undescribed.

In High River Mr. Wallace is waging a "gallant struggle" against a disgruntled and dissatisfied Liberal, and an unpopular Conservative. Against either candidate single handed Mr. Wallace would have a comparatively easy flight. Against the two the contest is more strenuous, though it seems that Mr. Wallace is likely to win.

It is no secret that Mr. Wallace, though not seeking the position, was a strong candidate for the position of Minister of Agriculture. Mr. Wallace has been very active in the interests of the riding.

The same may be said of Mr. Fisher, a vigorous and enterprising candidate in the riding of Banff. The day is not far distant when Mr. Fisher will be in the Provincial cabinet. He is a business man of rare ability, a speaker of little experience but of promise, and a gentleman respected by all in the riding.

Dr. Clark, of Gids, is a talented and cultured gentleman, who has had much experience in political life and will be a strong addition to the Provincial Parliament.

Four strong Liberals all of cabinet calibre are in the field in the vicinity for election. Each one should win.

### INAUGURAL CELEBRATION COMMITTEE.

The affairs of this committee will be wound up, and the books and accounts closed, on 31st October next. All accounts must be in the secretary's hands before that date.

## SOME MEN ARE RICH

In Edmonton today because they had foresight enough two or three years ago to buy property which, as the city grew, advanced rapidly in value. Some of them were laughed at—people called them fools—but two short years have abundantly proved the correctness of their judgment, and they are reaping the reward of their faith in the city.

The growth of the city during the past two or three years has been great, but, compared with the growth of the next two or three years it will be but as the dawn of day compared with the splendor of the noon-day sun.

You have the opportunity now to do as some few did in the past.

## The Groat Estate

is now on the market at prices which will look small—very small, indeed—in the very near future. The city is growing westward rapidly and ere long this estate will be the choice residential part. No part of this estate is more than two miles from the very centre of Edmonton today—in five years it will be in the very heart of the city.

There are 500 lots—50 x 150 ft.—to be sold on easy terms— one-third cash, and the balance in six and twelve months, without interest. There will be no taxes to pay for over a year.

## History Repeats Itself

You can buy from two to ten lots for the same money which it will take to purchase one in the present settled part of the city. Those who sow a few dollars now will reap a rich harvest in the not-far-distant future. Don't miss the chance now—TODAY—and have to say in a year: "What a fool I was that I didn't purchase a year ago." Somebody is going to make money on this estate—why not have a share of it?

London, Oct. 25.—The Daily News says confidential negotiations are going on between England, Canada and New Foundland regarding the inclusion of the island in the Dominion. The item is interesting at the present stage of the fisheries dispute with the States.

## NEW OIL WAREHOUSE

Imperial Oil Co. Build in Strathcona—  
Investigating the Break Down in the Electric Light Plant

Strathcona, Oct. 24.—Mr. Carter of Edmonton, is superintending the building of a large warehouse here, south of the station for the Imperial Oil Co., of Montreal. Mr. Carter was for a number of years in the employ of the Montreal Street Railway Co. and was the pioneer builder for the C. P. R. of the present stations from here to Calgary. He also built the station, the Strathcona House, and the engine house here.

Mr. Gibbs, insurance agent, formerly of Toronto, is in town. He left home some three years ago, largely on account of ill-health. Mr. Fitzpatrick, formerly of Cornwall, Ont., and Michigan, U. S., has just arrived home from California, where he had been visiting his daughter. He is glad to be at home again, and says northern Alberta is preferable to the Pacific State either in climate, soil or possible future material progress. He says there will be a considerable exodus to this section in 1966.

Mr. Adkins, late of England and now a resident of this town purposes leaving here in a few weeks for his farm northwest of Morinville. He has been out there and has been partly erected. He reports this section to have good land and a fair supply of timber for the wants of the settler.

Mr. White, a retired farmer of Cardwell, Ont., is in town. He left home early in September and has toured the west since. He professes this section to anything he has seen west of Winnipeg.

Mr. Cornwall, of the Edmonton Iron works, visited the electric plant here yesterday in the interests of the Watrous engine works. After a thorough examination, and opening up the cylinders and making diligent enquiries from those who had been in the building previous to the accident, he assured the town councillors and engineers of the plant that the engine showed no signs of having been wrecked by water in the cylinder and stated most emphatically that the engine had been well oiled and had every appearance of having been well cared for in every way, hence he could not account for the accident. He telegraphed the company to send to town their best expert from Winnipeg.
